The Logos, 1961

Incarnate Word College
San Antonio, Texas

WEST HIGH LIBRARY

Foreword

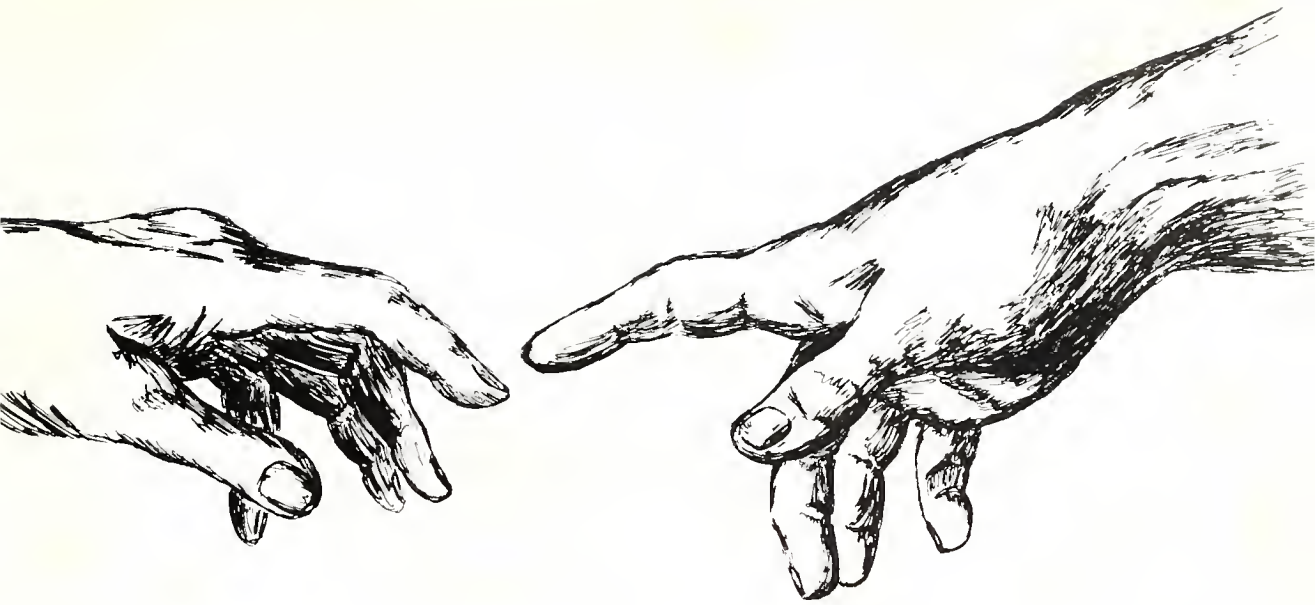

*Michelangelo has symbolized Divine Creation
through his painting in the Sistine Chapel,
“The Creation of Adam.”*

*In the detail of the hands from this masterpiece,
the artist captured
the power of the Divine Creator —
God’s omnipotent finger
stretching out to inspire the lifeless hand of Adam,
stirring him to human existence and ultimate
participation in Divine Life.*

*Man, formed in the likeness of his Creator,
seeks to mirror this creation through his
expressions of the beautiful.*

*Jacques Maritain has said:
“The creative power of the human spirit
craves after pure creation.”*

*Pure creation is not possible to man, but in
the fulfillment of his nature,*

*he reaches out to capture
the beauty of God's created world.*

*We have chosen the divine creation
and man's imitation of divine beauty
as the theme of our 1961 Logos.*

*Education has as its goal an ennoblement
of human nature and human dignity.*

*If man is to attain this ennoblement
he must achieve it through the perfection
of his supernatural creation
through the imitation of the divine Creator.*

Mrs. Katherine A. Ryan, LL.D.

Dedication

Completion of the Katherine A. Ryan Center for mentally retarded children represents a highlight of progress at Incarnate Word College for 1961. The center stands as a tribute to a woman upholding noble goals of education and charity toward humanity. The accomplishments of Mrs. Katherine A. Ryan illustrate her role as a woman of leadership. Her active interest in Catholic education was recognized in 1957 when she was presented the Aristotle-Aquinas Citation by the Catholic College Foundation, and in 1960 when she received an honorary Doctor of Laws Degree from Incarnate Word College. She is a member of the National Conference of Christians and Jews and of the Board of Directors of Incarnate Word College, as well as of St. Mary's University and the University of Dallas.

Mrs. Ryan is a Christian leader whose love of God has been manifested through her love of man. We honor her through the dedication of our 1961 Logos.

Convent Chapel

The Convent Chapel, one of the first buildings on the IWC campus, is a source of inspiration to all students and the scene of the annual Mass of the Holy Ghost, student retreats and Baccalaureate Ceremonies. Designed in a Romanesque style of architecture, the Chapel is one of the beauty spots of the campus.

Administration Building

The main entrance to Incarnate Word College, shown above, leads past the Auditorium to the entrance of the Administration Building. The Administration Building is the nucleus of all scholastic activity on campus.

Children's Hospital

Student nurse Evangelina Himojosa and Laura Campeon gain experience in pediatrics in the new Santa Rosa Children's Hospital by administering oxygen to a child patient.

The Children's Hospital serves as the center for training in pediatrics for student nurses. The building was opened last year and offers the latest equipment for the medical treatment of children.

Santa Rosa Hospital

Santa Rosa, one of
the largest
hospitals in
Southwest Texas,
offers facilities
for the college
degree-program
for training
registered nurses.

The 500-bed
hospital also
serves as a center
for the training
of students in
medical technology,
radiologic
technology, and
medical record
library science.

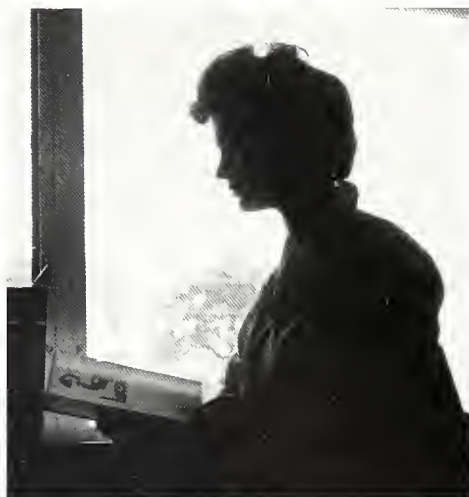

St. Pius X Library

The St. Pius X Library is a center of preparation, research and study on the campus. The library is fully equipped, offering comfort, quiet, and an opportunity for concentration to the students of Incarnate Word College.

Lost in study and reflection, Marilyn Bueche is pictured using the Reference Room in the Library.

Spending an afternoon of work in the library stacks are Mary Agnes Preston, Cecilia Ulcak, Mary Roberta Brown, and Patty McShane.

Sarah Rodriguez, pictured at right, makes use of the collection of bound periodicals which the Library offers.

Science Hall

The Science Hall is the center of scientific activity and research at Incarnate Word College. C'leste Fee'ri and Ginger Heisler are pictured on the front steps of the building which is the scene of all science classes and laboratories. Scientific research studies in cancer are conducted in a specially equipped research center.

Science majors Gail McSherry and Ramah Koenig demonstrate the Micro-Kjeldahl method of nitrogen determination in one of the Science Hall laboratories.

Rosemary Gutierrez and Pauline Finney, majors in chemistry, prepare the apparatus for a vapor pressure experiment. Both seniors act as laboratory instructors in the Department of Chemistry.

Gymnasium

The College Gymnasium is one of the most functional buildings on the IWC campus. District tournaments, intramurals, and faculty-student games are held here along with the regular physical education classes. Jean Zappe, Shannon Harrison, and Kay Vreeland chat in the shade in front of the building.

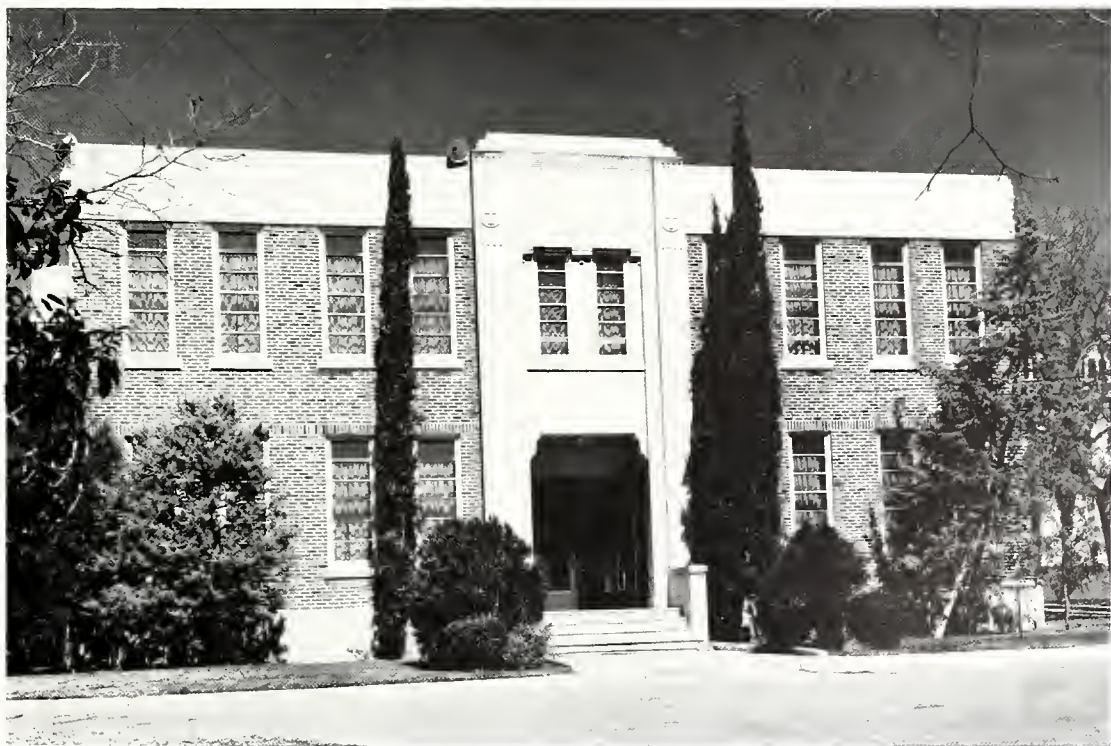

Home Management House

Home economics majors gain actual practice in homemaking in the Home Management House. Sue Merrill, Madelon Klinger, and Pat Poth join in some of the social activities which make up part of the home economics major's training.

Household Arts Building

The Household Arts Building, one of the three home economics units on campus, is the center of activity of the department. Costume design, clothing construction, food preparation, and nutrition lectures and laboratory periods are held here.

Dubuis Hall

Dubuis Hall, one of the three dormitories on campus, accommodates 120 resident students. Sheila Madigan and Betty Seigler are pictured on the front steps. Interior view below shows Pat Johnson looking in on Jean Zappe as she waters her ivy. Jean's bedroom shows her artistic touch for interior decoration.

Marian Hall is comparable to any of the most modern dormitories on Southwestern College campuses. It is a combination student center and residence building.

Marian Hall

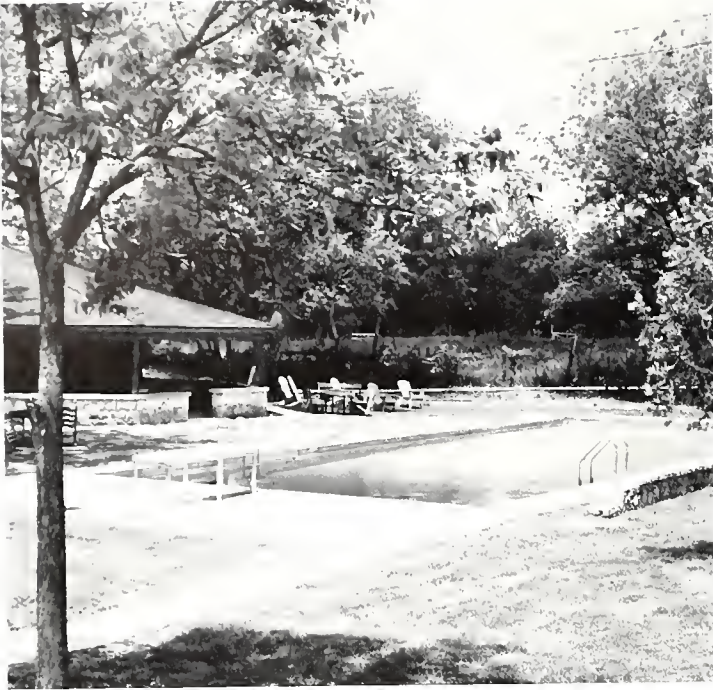

The homelike atmosphere and versatility of the rooms in Marian Hall are shown in this bedroom converted into a sitting room for daytime use. Carmen and Rose Rojas enjoy the comfort of their double room.

Resident students Gail Owen and Bertha Hinojosa meet their escorts in the lounge of Marian Hall. The lounge is decorated in fruitwood stained wood panelling and contemporary furnishings.

Swimming Pool

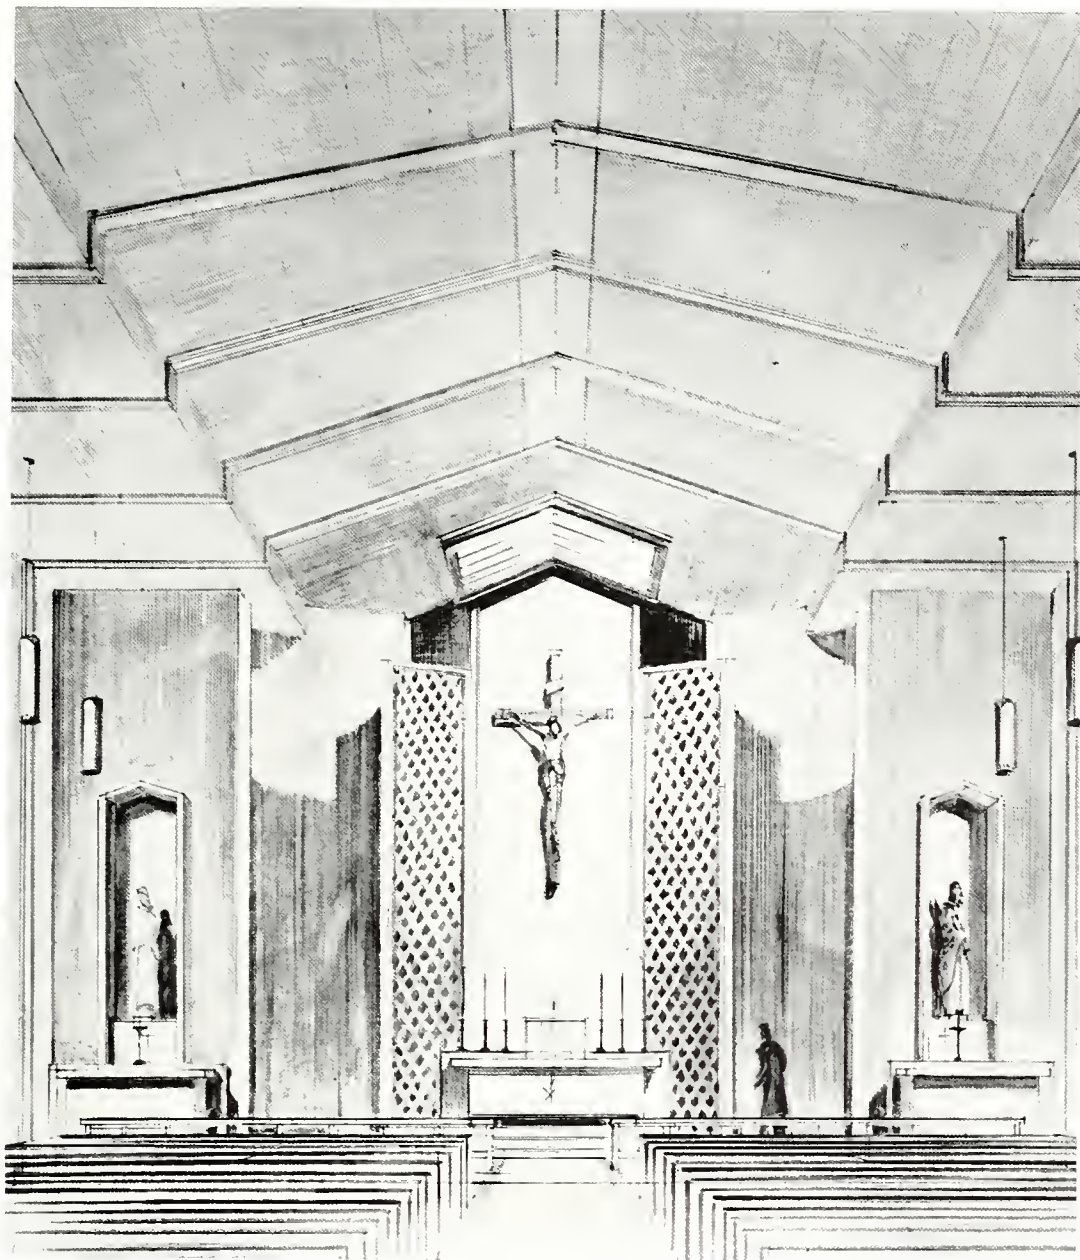

The swimming pool is a favorite campus spot for both physical education classes and students who find leisure recreation here. It is located at the back of the Guest House and was first formed around natural springs in the area.

Guest House

The Guest House, originally the Brackenridge Villa, served as the first Motherhouse of the Sisters of Charity of the Incarnate Word and is now the Chaplain's Residence.

A Look to the Future . . .

New College Chapel

Construction engineers have been working since November on the latest addition to the College campus—a new chapel. Architect's sketch shows marble altars and reredos with skylighted canopy. The chapel will be air conditioned for summer comfort and will be accessible from the lobby of the Administration Building and entry doors in the courtyard.

*Man inherits
the grandeur of a divine creation
without a full realization
of its immensity and splendor.*

*But through his growth in the spirit and intellect,
he becomes a reflection of God's first command,
"Be light made."*

*At the end of her four years of college,
the senior looks into a glowing horizon;
she sees the beginning and the climax
of a day and a life
blended to yield
another day and life to be fulfilled.*

*The brilliant tones of the evening sunset
symbolize the fullness
of her insight
into faith, truth, and beauty.*

*She has reached a culmination and commencement—
the culmination of spiritual
intellectual and
aesthetic preparation, and
the commencement of the plateaus of her lifetime,
the fulfillment of her womanhood,
the realization of her creation
and finally
her union with God.*

*The waterfall in its sharp and swift descent
falls onto the crags in the stream below,
softening the rough edges
and purifying itself in the act.
As the college student completes her junior year,
she comes closer to the perfection
of her intellectual and cultural values
which have been softened
and molded by her growing knowledge
of spiritual and natural realities.
Through the cleansing waters of Baptism
man is awakened
to the immensity of his earthly existence
and his heavenly goal.
And throughout his life
water continues to signify
the source of spiritual and natural life.
The surge of the waterfall symbolizes
the rapid flow
of Thought and Knowledge
which the junior has realized
as she grows in her understanding
of the power and beauty of God's Creation.*

there exists a bridge of life
which every man must cross.*

*Many approaches may be made
along the way to facilitate our passage
toward the end.*

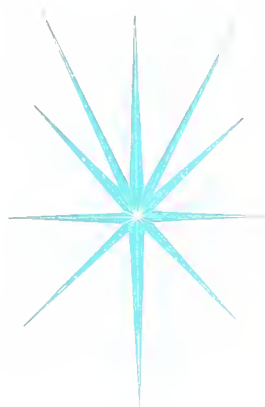

*Some paths, however, will never be spiritually adequate
to overcome the obstacles
that may make the tract impassable.*

*The college student chooses to cross the bridge of understanding
through the pursuit of truth and knowledge,
confident that this will
lead her to the eternal source of Truth.*

*The sophomore has reached the halfway mark

*In the ascent to truth
there are many staircases to be climbed.*

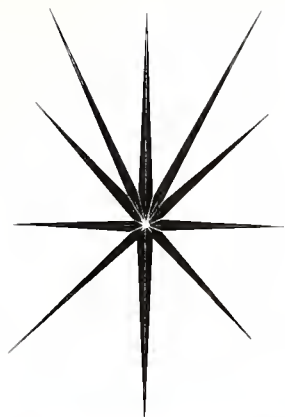

*Each step represents
the achievement and understanding
that takes a student toward her goal —
the education of her mind
and the perfection of her soul.*

*At the top of the staircase
she will find herself closer to
the horizons of knowledge,
the radiance of beauty,
and the perfection of truth.*

*The college freshman has taken the first step;
she has approached the staircase
and has looked into the future.*

*Before her she sees the fullness life will hold
in the Truth and Love of God.*

*Wisdom is her goal
and it will be the impetus
leading her past the foliage or brush
that makes the climb more difficult —
the goal sometimes seem impenetrable.*

Organizations

*Education is incomplete
without the application
of the principles and ideals
presented in the lecture hall.
Through campus organizations
the student has the opportunity
to complement
her knowledge of truth
and appreciation of God's created beauty.
Religious, scholastic, departmental and social
groups are focused on
the refinement and extension
of her spiritual and intellectual development.
The particular projects and ends of these
organizations
stimulate and demonstrate
the students' abilities and creativity
and serve to unite the members of the student
body
in a mature spirit of cooperation
for a purposeful goal.
While developing leadership and originality,
these associations also foster
a working relationship
between the college administration and student
as the two function together
in their quest for Truth.*

ORGANIZATIONS

Father John Cogavin, director of the Apostleship of Prayer, plans activities of the organization with the officers: Elva Rose Trevino, treasurer; Janice Schneider, secretary; Bertha Gonzalez, president; Pat Lozano, sergeant-at-arms; and Sylvia Rosel, vice-president.

Apostleship of Prayer

Leaders in the work of the Apostleship of Prayer are Maria Teresa Cosio, Diana Sanchez, Gail Elster, Suzette Wilson, Maria Christina Garza, and Dilia Margo.

The Apostleship of Prayer is an association dedicated to the Sacred Heart. By prayer and zeal the members seek the growth of the Mystical Body of Christ. The work of the organization is based on the principle that man can win grace for his fellow men by prayer and on Christ's commandment of love for one another.

Sodality

The Sodality has a two-fold purpose of self-sanctification and sanctification of others. Under the guiding influence of director Father Thomas French and moderator Sister M. Lucilla, the Central Council is composed of the officers and committee chairmen and forms the nucleus of the organization. Members of the council are Rosemary Gutierrez, prefect; Maria de la Paz Solis, vice-prefect; Marge Wells, secretary; Evangelina Hinojosa, treasurer; Angela Leal, transportation and apostolic committee; Elaine Goolsby, eucharistic committee; Mary Rita Jimenez, Marian committee; and Mary Elaine Adamek, publicity committee.

Distributing Catholic literature is a Sodality activity for Angela Leal and Sis Goolsby.

Saturday mornings are spent teaching catechism to public school children by Judy Ramirez and Mary Lou Cavazos.

Not present when the picture was taken were Barbara Archer, editor of *The Logos*, and Rosie Flores, editor of the yearbook. Sister M. Antoninus is the faculty advisor of the Student Council.

The Student Council is the official representative of the student body and serves as a link between the faculty and the students. Members of the Council are nominated and elected by the student body for a period of one year. The Student Council administers the routine discipline of campus life and acquaints the student body with its responsibility to the student community and to the post-college community.

Activities for the year included Freshman Orientation, the Harvest Festival, College Day, Open House, Battle of Flowers float, Miss Fiesta contest, and the Tri-College activities.

The Logos

The Logos, the College newspaper, serves as a channel for the expression of student thought and of publicity for student activities. It aims at presenting the truth while striving for high journalistic standards. The newspaper also sponsors the Christmas Poetry Contest to stimulate interest in creative writing. Sister M. Rita is faculty sponsor.

Editor Barbara Archer and Assistant Editor Mary McGoochan put their heads together to work out new ideas for a Logos issue.

Activities

*Through the channel of campus activities
college organizations achieve their goals
and give additional significance to education
by broadening
the scope of the student's intellectual endeavor.*

*As the application of education
gives meaning to activities,
so activities are a purposeful extension of
college studies;
their very purpose is a practice
and eventual fulfillment of the ideals of
knowledge.*

*They challenge the student to apply
the principles of Truth she has acquired
through her educational pursuit.*

*Through her participation in campus events
the student also expands her field of interests
as she comes into contact
with other people working toward similar goals.*

*She becomes a more interested
and interesting person
as she forms a bond
with those who are spiritually deep,
intellectually learned,
culturally enriched,
and socially poised.*

Carnival

We were bound in the crowd.
 Motion and sound pulsed around
 And within us:
 Metallic screams of a carousel.
 Lost to the swelling cadence
 Of babbling faces.
 A sudden laughter-spurt nearby, or was it a cry?
 Ropes of trinket-jewels above us, winking gaily
 To the frosty glances of distant, nobler gems.
 A pink sugar-swirl on a cone.
 A withered, parchment face, leering,
 "See the two-headed man!"
 Then a dizzying flight into velvet, higher, higher;
 Over a crystal elfin-city, and headlong
 Plunging into the sea.
 The whispers of silence beckon us away:
 Firm, grainy coolness, faintly moist between our
 toes.
 And muted laughter at the sanderabs
 Darting among gritty homes;
 The icy caress of shallow finger tips of froth.
 Then stillness.
 But stealthily the pulse returns,
 Stronger and more certain.
 Luring us to run again, breathless,
 Away from the quiet and leisurely order.
 Toward the bold, flirting tinsel of gaudy confusion.
 "See the two-headed man!"

The Mortality of Lunch

In the mooded cool of after lunch,
 Tiled silence and repose.
 Since the tabled talk was cleared away
 With the dishes and the food,
 We sit chair dreams and chew our uncluttered
 thoughts,
 And tuning up of many brains for later laughs and
 cries,
 And the clocking chests keep time,
 Except now and then a sigh to chime the hour
 And break the rhythm of the room.
 And no one cares that his mind is nude
 Among the half-mooned mouths and lookless eyes.
 (All focused on the carpet stain, but no one cares.)

Margaret's Gone

"Harry, it's your deal."

How odd that we should meet
today when the world stopped
and started again in liquid motion.
I'm glad they haven't told you about
Margaret.

"Your ante."

People thought of us as three, always three.
We both hung on her bracelet,
tinkling when we clashed,
two decorations making war.
I wonder if Margaret took it with her.

"I'll stay with these."

She wore white and I black—
you handed me the band.
I have forgotten if you touched glasses with the
others.
Did you assist at your own autopsy?
You haven't heard from Margaret,
have you?

"See your three, and raise you two."

We played at puzzles as at kings and queens.
When you kibitzed
the brittle pieces fell away.
I had thought love needed only two
until Margaret asked me—How is Harry?

"I'll call."

How is it that I envy even your bald spot?
Have you noticed mine is thinning?
I saw our three reflections in a glass of scotch,
and I was only inches high
for Margaret held me and whispered—Harry.

"My pot! Two knaves and a lady."

Adieu, adios, alas, it's finished . . . Our tenure on the yearbook staff is completed and those mornings, noons, and afternoons of work are over . . . And now that you have read our book you may tell us if it was worth our efforts . . . And if it wasn't (which, of course, it was), we have memories just the same . . . Mr. Bacon: "Sugar, hold that pose now; I'll be ready in 30 minutes." "Take your time, girls, they pay me by the hour." . . . Friday afternoon that became Saturday afternoon that became a Sunday evening, too . . . Cutlines—"Say something clever about this picture." If it were only that easy! . . . Rosie Flores who opened all our eyes, trimmed our waists and cut our hair—all with retouch paint . . . Deadlines, deadlines, oh, no, another one. And though we may fail World Lit., we must proofread . . . And our faculty advisor: "Faith, knowledge, and appreciation of the beautiful; say something about that." "Another coffee break? . . . but you just had one." "I'll meet you girls again tomorrow at one." "But, Sister—" . . . But, alas, it's over—the work, the good times, the yearbook.
